

# Wi-fi 4G Solar camera

## SC2

Easy to install, the Amalock-SC2 is one of the best Solar powered PTZ on the market for its value and features.

This product is ideal for areas that has no WI-FI or Power, such as remote farms, sheds and large gardens etc.

Whenever a motion is detected, the camera sends an alert to your mobile of any activity on your property and with its automatic floodlights, it enables you to see clearly in the darker nights as the 'white light' from the camera will turn a black and white view into colour. Dial in at any time to view your property and vehicles for that peace of mind.
