

Abloy-351U80

Solenoid Lock

The 351U80 Solenoid lock is suitable for single and double action doors.

It is Fail unlocked and tested to BS EN 13637.

It can be supplied with 25, 44 or 54mm strike plates and is available in either 12V or 24V DC.

Finish Type: Stainless Steel

Technical data

DIN direction	universal
Monitoring contact (RR)	Yes
Diode (05)	Yes
Fail-unlocked	Yes
Armature contact (AK/RR)	Yes
Rated operating voltage tolerance range	12 V $\pm$ 1 V
Nominal resistance 12 V	37 Ohm
Current consumption 12 V DC (stabilised)	320 mA
Colour	35
Break-in resistance	5000 N
Approvals	EltVTR/EN 13637
Height	200 mm
Width	25 mm
Depth	42 mm
Max. latch preload	5000 N
Colour	Stainless steel
Continuous function load cycles	200000
