

LA3219S Series

Automatic Speed Lanes

- Servo brushless drive delivers smooth, quiet operation with precise movement control.
- Slim aluminium housing provides a modern appearance with durable 5.0mm alloy construction.
- Adjustable passage width supports lane configurations between 600mm and 900mm.
- Advanced sensor detection uses multiple infrared pairs for accurate pedestrian recognition.
- High-performance control system ensures fast response and reliable access management.
- Standard height of the baffle is 900mm from the floor.
